

MATH 432H: Mathematics and Financial Derivatives I - Honors *Fall 2022 Course Syllabus*

NJIT Academic Integrity Code: All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

COURSE INFORMATION

Course Description: Mathematical analysis of models encountered in the area of financial derivatives. Topics include modeling and analysis of futures markets, determination of future prices, hedging strategies, swaps, option markets, stock options and their trading strategies.

Number of Credits: 3

Prerequisites: **MATH 222** with a grade of C or better and **MATH 346** with a grade of C or better.

Course-Section and Instructors:

Course-Section	Instructor
Math 432-H01	Professor A. Pole

Office Hours for All Math Instructors: [Fall 2022 Office Hours and Emails](#)

Required Textbook:

Title	<i>Derivatives Markets</i>
Author	McDonald
Edition	3rd
Publisher	Addison Wesley
ISBN #	978-0321543080

University-wide Withdrawal Date: The last day to withdraw with a **M** is **Monday, November 14, 2022**. It will be strictly enforced.

COURSE GOALS

Course Objectives

This course will teach students the mathematical analysis of financial derivative contracts: What instruments exist, how they are used, and how they are priced.

Course Outcomes

On successful completion of this course, the student will be able to:

- Explain basic financial derivative contracts: forwards, futures, options and swaps.
- Perform payoff and profit calculations for financial derivatives.
- Demonstrate hedging strategies using financial derivatives.
- Apply the techniques to practical problems.

Course Assessment: Assessment of objectives is achieved through homework assignments, projects, and a comprehensive final exam.

POLICIES

DMS Course Policies: All DMS students must familiarize themselves with, and adhere to, the [Department of Mathematical Sciences Course Policies](#), in addition to official [university-wide policies](#). DMS takes these policies very seriously and enforces them strictly.

Grading Policy: The final grade in this course will be determined as follows:

Homework	25%
Projects	25%
Midterm Exam	25%
Final Exam	25%

Attendance Policy: Attendance at all classes will be recorded and is **mandatory**. Please make sure you read and fully understand the [Math Department's Attendance Policy](#). This policy will be strictly enforced.

Projects: There will be 2 research projects for your selected companies.

There will be 3 mini-projects for the selection of companies. You are required to take the four core concepts modules and their tests for the Bloomberg terminals. They must be completed by mid-semester. If you are on campus and can access the Bloomberg terminals you can take the fifth module on the terminal and become Bloomberg certified. This is encouraged if you are able, but it is not required for the class.

This arrangement is tentative.

Exams: There will be a cumulative final exam during the final exam week:

Final Exam Period	December 16 - 22, 2022
-------------------	------------------------

The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the [Math Department's Examination Policy](#). This policy will be strictly enforced.

Makeup Exam Policy: There will be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event an exam is not taken under rare circumstances where the student has a legitimate reason for missing the exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor’s note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the Math Department Office/Instructor that the exam will be missed.

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times.

ADDITIONAL RESOURCES

Math Tutoring Center: Located in the Central King Building, Lower Level, Rm. G11 (See: **Fall 2022 Hours**)

Further Assistance: For further questions, students should contact their instructor. All instructors have regular office hours during the week. These office hours are listed on the Math Department’s webpage for **Instructor Office Hours and Emails**.

Accommodation of Disabilities: The Office of Accessibility Resources and Services (OARS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Scott Janz, Associate Director of Disability Support Services at **973-596-5417** or via email at **scott.p.janz@njit.edu**. The office is located in Kupfrian Hall, Room 201. A Letter of Accommodation Eligibility from the Office of Accessibility Resources and Services office authorizing your accommodations will be required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the **Office of Accessibility Resources and Services (OARS)** website.

Important Dates (See: **Fall 2022 Academic Calendar, Registrar**)

Date	Day	Event
September 5, 2022	Monday	Labor Day
September 6, 2022	Tuesday	First Day of Classes
September 12, 2022	Monday	Last Day to Add/Drop Classes
November 14, 2022	Monday	Last Day to Withdraw
November 22, 2022	Tuesday	Thursday Classes Meet
November 23, 2022	Wednesday	Friday Classes Meet
November 24 to November 25, 2022	Thursday and Friday	Thanksgiving Recess - Closed
November 26, 2022	Saturday	Saturday Classes Meet
December 14, 2022	Wednesday	Last Day of Classes
December 15, 2022	Thursday	Reading Day

December 16 to December 22, 2022	Friday to Thursday	Final Exam Period
-------------------------------------	-----------------------	-------------------

Course Outline

Week	Chapter	Topic
1	Chapter 1	<i>Introduction to Derivatives</i>
2 - 4	Chapter 2	<i>Forwards and Options</i>
5	Chapter 9	<i>Parity</i>
6 - 8	Chapter 3	<i>Collars and Other Strategies</i>
9 - 10	Chapter 4	<i>Introduction to Risk Management</i>
11 - 13	Chapter 5	<i>Forwards and Futures</i>
14	Chapter 8	<i>Swaps</i>
