

**Spring 2020 Syllabus Addendum
Transitioning to Online Instruction**

Math 699–102

Course Title: Design and Analysis of Experiment

Instructor: Professor S. Dhar

Date: March 25, 2020

Office hours and classes and class presentations will be run through <https://njit.webex.com/meet/dhar> at the regular NJIT announced times. You will for the first time need to run the Webex executable file to be able to join the meeting.

Please mute your microphone and turn your video on.

Please dress up properly for the class and use a quiet-room so that the class does not feel embarrassed seeing one another or is disturbed by the sound when one will be speaking during the class session and participation.

Any presentation to be shared with the class can be done using “share” within Webex.

HW and grading and other information exchange:

HW:

- 1) Please convert your HW#(?) to pdf file.
- 2) Then click HW#(?) in Canvas.
- 3) Then choose the red button **Submit Assignment**.

Canvas will prompt the dialog box to upload the pdf file.

HW will be graded using Speed grader within Canvas. A graded HW file with grades out 10 points will appear within Canvas' grading tool for your examination and record.

All other information will be exchanged via Canvas email and other tools.

Exams will be administered using Canvas and Respondus with lock down browser.
