

MATH 105-010: Elementary Probability and Statistics

Spring 2021 Course Syllabus

NJIT Academic Integrity Code: All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

DMS Online Exam Policy Spring 2021: Exams will be proctored using both Respondus LockDown Browser+Monitor and Webex. Students will be required to join a Webex meeting from their phone with their cameras on, and to access the exam through LockDown Browser on a Mac or Windows PC with webcam. Students must follow all instructions related to environment checks and camera positioning.

COURSE INFORMATION

Course Description: Consider notions of probability. Topics include the binomial and normal distributions, expected value, and variance. The notions of sampling, hypothesis testing, and confidence intervals are applied to elementary situations.

Number of Credits: 3

Prerequisites: None.

Course-Section and Instructors

Course-Section	Instructor
Math 105-010	Professor A. Flax

Office Hours for All Math Instructors: [Spring 2021 Office Hours and Emails](#)

Required Textbook:

Title	<i>Understanding Basic Statistics</i>
Author	Brase and Brase
Edition	8th
Publisher	Cengage
ISBN #	978-1337888981

University-wide Withdrawal Date: The last day to withdraw with a W is **Monday, April 5, 2021**. It will be strictly enforced.

COURSE GOALS

Course Objectives

- The objective of this course is to acquaint students with basic concepts and methods in statistics and probability and demonstrate real world applications using examples drawn from various fields. Topics to be covered include sampling, descriptive statistics, correlation and regression, notions of probability, binomial and normal distributions, estimation and hypothesis testing.

Course Outcomes: *Upon successful completion of this course, the student will be able to -*

- Demonstrate their understanding of various statistical terms, types of data, and data collection methods
- Efficiently summarize, organize, and present data
- Effectively compute measures of central tendency, position, and variation and interpret the results
- Demonstrate their understanding of notions of probability and distributions
- Perform statistical analysis, such as estimation, hypothesis testing, correlation and regression and draw conclusions
- Apply statistical reasoning to real world problems and make informed decisions

Course Assessment: The assessment tools used will include homework, quizzes, two midterm exams, and a cumulative/comprehensive final exam.

POLICIES

DMS Course Policies: All DMS students must familiarize themselves with, and adhere to, the **Department of Mathematical Sciences Course Policies**, in addition to official **university-wide policies**. DMS takes these policies very seriously and enforces them strictly.

Grading Policy: The final grade in this course will be determined as follows:

Homework and Quizzes	30%
Midterm Exam I	20%
Midterm Exam II	20%
Final Exam	30%

Your final letter grade will be based on the following tentative curve.

A	90 - 100	C	65 - 74
B+	85 - 89	D	55 - 64
B	80 - 84	F	0 - 54
C+	75 - 79		

Attendance Policy: Attendance at all classes will be recorded and is **mandatory**. Please make sure you read and fully understand the **Math Department's Attendance Policy**. This policy will be strictly enforced.

Homework Policy: Homework is an expectation of the course. Written Homework will be assigned in class. There will be additional homework on WebAssign and is expected to be completed by the deadlines set forth in the web portal. If you have any difficulties with registering and getting an account with web assign please see the professor immediately.

Quiz Policy: There will be 8-12 quizzes given throughout the semester.

Exams: DMS Exams for Spring 2021 will be administered in Canvas with proctoring using both Respondus LockDown Browser+Monitor and Webex.

Exams: There will be two midterm exams held in class during the semester and one comprehensive final exam. Exams are held on the following days:

Midterm Exam I	February 26, 2021
Midterm Exam II	April 13, 2021
Final Exam Period	May 7 - 13, 2021

The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the **Math Department's Examination Policy**. This policy will be strictly enforced.

Makeup Exam Policy: There will be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event an exam is not taken under rare circumstances where the student has a legitimate reason for missing the exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor's note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the Math Department Office/Instructor that the exam will be missed.

Additional Information: A separate page titled **MATH 105 - Spring 2021 Getting Started Document**, posted in Canvas, provides further details about the course requirements and additional syllabus information. This page is considered as part of the syllabus. Any annotations posted on the Syllabus page in Canvas are considered part of the syllabus.

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times.

ADDITIONAL RESOURCES

Math Tutoring Center: Located in the Central King Building, Lower Level, Rm. G11 (See: **Spring 2021 Hours**)

Further Assistance: For further questions, students should contact their instructor. All instructors have regular office hours during the week. These office hours are listed on the Math Department's webpage for **Instructor Office Hours and Emails**.

All students must familiarize themselves with and adhere to the Department of Mathematical Sciences Course Policies, in addition to official university-wide policies. The Department of Mathematical Sciences takes these policies very seriously and enforces them strictly.

Accommodation of Disabilities: The Office of Accessibility Resources and Services (OARS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director of the Office of Accessibility Resources and Services at **973-596-5417** or via email at lyles@njit.edu. The office is located in Kupfrian Hall, Room 201. A Letter of Accommodation Eligibility from the Office of Accessibility Resources and Services authorizing your accommodations will be required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the Office of Accessibility Resources and Services (OARS) website at:

- <https://www.njit.edu/studentsuccess/accessibility/>

Important Dates (See: **Spring 2021 Academic Calendar, Registrar**)

Date	Day	Event
January 19, 2021	T	First Day of Classes
January 23, 2021	S	Saturday Classes Begin

January 25, 2021	M	Last Day to Add/Drop Classes
March 14 - March 21, 2021	Su - Su	Spring Recess - No Classes
April, 2, 2021	F	Good Friday - No Classes
April 5, 2021	M	Last Day to Withdraw
May 4, 2021	T	Friday Classes Meet
May 4, 2021	T	Last Day of Classes
May 5 & May 6, 2021	W & R	Reading Days
May 7 - May 13, 2021	F - R	Final Exam Period

Course Outline

Week #	Lecture #	Sections	Topics
1	1 (1/19)	1.1-1.3	Statistics and Sampling
	2 (1/22)	1.1-1.3	Statistics and Sampling cont'd
2	3 (1/26)	2.1-2.3	Organizing Data
	4 (1/29)	2.1-2.3	Organizing Data cont'd
3	5 (2/2)	3.1-3.3	Averages and Variation
	6 (2/5)	3.1-3.3	Averages and Variation cont'd
4	7 (2/9)	4.1-4.2	Correlation and Regression
	8 (2/12)	4.1-4.2	Correlation and Regression cont'd
5	9 (2/16)	5.1-5.3	Probability Theory
	10 (2/19)	5.1-5.3	Probability Theory cont'd
6	11 (2/23)		<i>MIDTERM 1 REVIEW</i>
	12 (2/26)		MIDTERM #1
7	13 (3/2)	6.1-6.3	Binomial Distribution
	14 (3/5)	6.1-6.3	Binomial Distribution cont'd
8	15 (3/9)	7.1	Normal Curves
	16 (3/12)	7.2	Normal Curves cont'd
9	17 (3/23)	7.3	Normal Curves cont'd
	18 (3/26)	7.4-7.5	Sampling Distributions
10	19 (3/30)	7.5	Central Limit Theorem
	(4/2)	---	GOOD FRIDAY – NO CLASS
11	20 (4/6)	7.6	Sampling Distribution for Proportions
	21 (4/9)		<i>MIDTERM 2 REVIEW</i>
12	22 (4/13)		MIDTERM #2
	22 (4/16)	8.1-8.2	Estimating the Mean
13	24 (4/20)	8.3	Estimating Proportions

14	25 (4/23)	9.1	Hypothesis Testing
	26 (4/27)	9.2	Testing the Mean
15	27 (4/30)	9.3	Testing a Proportion
	28 (5/4)		<i>FINAL EXAM REVIEW</i>
EXAM WEEK	--	1.1-9.3	FINAL EXAM (CUMULATIVE)
