

THE COLLEGE OF SCIENCE  
AND LIBERAL ARTS

THE DEPARTMENT OF MATHEMATICAL SCIENCES

## MATH 112: Calculus II

### *Summer 2021 Course Syllabus*

**NJIT Academic Integrity Code:** All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

DMS Online Exam Policy Summer 2021: Exams will be proctored using both Respondus LockDown Browser+Monitor and Webex. Students will be required to join a Webex meeting from their phone with their cameras on, and to access the exam through LockDown Browser on a Mac or Windows PC with webcam. Students must follow all instructions related to environment checks and camera positioning.

### COURSE INFORMATION

**Course Description:** Topics include integration, applications of integration, series, exponential and logarithmic functions, transcendental functions, polar coordinates, and conic sections.

**Number of Credits:** 4

**Prerequisites:** MATH 111 with a grade of C or better or MATH 132 with a grade of C or better.

**Course-Section and Instructors**

Course-Section	Instructor
Math 112-030	Professor M. Potocki-Dul
Math 112-031	Professor M. Potocki-Dul
Math 112-130	Professor P. Ward

**Office Hours for All Math Instructors:** [Summer 2021 Office Hours and Emails](#)

**Required Textbook:**

<b>Title</b>	<i>Thomas' Calculus: Early Transcendentals</i>
<b>Author</b>	Thomas
<b>Edition</b>	14th
<b>Publisher</b>	Pearson
<b>ISBN #</b>	978-0134768496 (bound) 9780134768762 (looseleaf)
<b>Notes</b>	w/ MyMathLab

**Withdrawal Date:** Please see the [Summer 2021 Academic Calendar](#) for the last day to withdraw based on the summer session you are registered for.

## **COURSE GOALS**

### **Course Objectives**

- Students should (a) develop greater depth of understanding of integration and its importance in scientific and engineering applications, (b) learn about series, including their convergence properties and their use in representing functions, (c) gain experience in the use of approximation in studying mathematical and scientific problems and the importance of mathematically understanding and evaluating the accuracy of approximations, (d) learn new ways of mathematically representing curves and how to use calculus in these settings, and (e) learn alternative coordinate systems which are natural for many problems and learn how calculus can be applied in these systems.
- Students should gain an appreciation for the importance of calculus in scientific, engineering, computer, and other applications.
- Students should gain experience in the use of technology to facilitate visualization and problem solving.

### **Course Outcomes**

- Students have improved logical thinking and problem-solving skills.
- Students have a greater understanding of the importance of calculus in science and technology.
- Students are prepared for further study in mathematics as well as science, engineering, computing, and other areas.

**Course Assessment:** The assessment of objectives is achieved through homeworks, quizzes, and common examinations with common grading.

## **TRANSITIONING TO ONLINE INSTRUCTION**

**Classes will meet at their regular scheduled times via Canvas or WebEx meetings using a combination of the following methods.**

- Method 1: Instructors will conduct lectures during these meetings.
- Method 2: Instructors will assign videos, notes, and/or power points to be studied by students before class time. Regular class time will be spent in Canvas or WebEx meetings going over problems and answering student questions. Classes will meet at their regular scheduled times via Canvas or WebEx meetings using a combination of the following methods.

### **Attendance**

- Instructors will be checking attendance during all online class meetings. Interaction during virtual group meetings and office hours will be required of all students.

### **Homework**

- Online Homework through MyMathLab will continue as scheduled. Written Homework will be collected using Canvas uploads.

### **Recitation**

- Recitation will be done via Canvas and/or WebEx during regular recitation scheduled times.

### **Office Hours**

- Instructors will use Canvas or WebEx to keep office hours at the same times as during regular semester.

### **Quizzes**

- Quizzes will take place on canvas with the use of the using Lockdown browser and Respondus Monitor. Exams Both exams and final exam will be taken using Lockdown browser and Respondus Monitor or ProctorU.

## POLICIES

**DMS Course Policies:** All DMS students must familiarize themselves with, and adhere to, the **Department of Mathematical Sciences Course Policies**, in addition to official **university-wide policies**. DMS takes these policies very seriously and enforces them strictly.

**Grading Policy:** The final grade in this course will be determined as follows:

Homework and Quizzes	15%
Common Midterm Exam I	25%
Common Midterm Exam II	25%
Final Exam	35%

Your final letter grade will be based on the following tentative curve.

A	88 - 100	C	65 - 71
B+	83 - 87	D	60 - 64
B	77 - 82	F	0 - 59
C+	72 - 76		

**Attendance Policy:** Attendance at all classes will be recorded and is **mandatory**. Please make sure you read and fully understand the **Math Department's Attendance Policy**. This policy will be strictly enforced.

**Homework Policy:** Calculus is learned by solving problems. In Math 112, there are two kinds of homework assignments: 1) assignments which are written out by hand and turned in, and 2) assignments which are completed online. The homework assignments are listed on the syllabus; the \* superscript denotes those problems which constitute the hand-in assignments while the remaining problems constitute the online assignments.

The online assignments can be completed at **WWW.MYMATHLAB.COM**. In order access the online assignments you need to have a student access code. Access codes are included with new book that is bundled with MyMathLab; codes can be purchased separately from the textbook at the campus bookstore or online at the course website. If you buy a new book from another source **make sure it is bundled with MyMathLab**. In addition, on the first day of class your course instructor will give you an additional code needed to access the online assignments. **NOTE: Homework Assignments are DUE frequently (at least weekly) at the dates and times specified online and by your instructor.**

**How to Get Started with MyMathLab:**

- **Getting Started**
- **Technology Tips**

**MATLAB Assignments:** MATLAB is a mathematical software program that is used throughout the science and engineering curricula. Two MATLAB assignments will be given during the semester; tutors are available to help students having difficulties in accordance with a posted **schedule**.

**Quiz Policy:** Quizzes are given in class on a frequent basis (at least weekly). All of the quizzes will be graded. The homework and quizzes are intended to develop your problem-solving skills and to help you prepare for the exams.

**Exams:** There will be two common midterm exams held during the semester and one comprehensive common final exam. Exams are held on the following days:

--	--

Common Midterm Exam I	June 16, 2021
Common Midterm Exam II	July 21, 2021
Final Exam	August 2, 2021

**Makeup Exam Policy:** To properly report your absence from a midterm or final exam, please review and follow the required steps under the DMS Examination Policy found here:

- [http://math.njit.edu/students/policies\\_exam.php](http://math.njit.edu/students/policies_exam.php)

**Cellular Phones:** All cellular phones and other electronic devices must be switched off during all class times.

## ADDITIONAL RESOURCES

**Math Tutoring Center:** Located in the Central King Building, Room G11 (See: [Summer 2021 Hours](#))

**Accommodation of Disabilities:** The Office of Accessibility Resources and Services (OARS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director of the Office of Accessibility Resources and Services at [973-596-5417](tel:973-596-5417) or via email at [lyles@njit.edu](mailto:lyles@njit.edu). The office is located in Kupfrian Hall, Room 201. A Letter of Accommodation Eligibility from the Office of Accessibility Resources and Services authorizing your accommodations will be required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the Office of Accessibility Resources and Services (OARS) website at: <https://www.njit.edu/studentssuccess/accessibility/>
