

**Spring 2020 Syllabus Addendum
Transitioning to Online Instruction**

Math 113-102

Course Title: Finite Math and Calculus I

Instructor: Professor E. Gulistan

Date: March 20, 2020

While NJIT has transitioned to online instruction during the Covid-19 outbreak, all policies detailed in the syllabus will remain in effect except those changes listed below or instituted by the Department of Mathematical Sciences or the University. In particular, the NJIT Academic Integrity Code continues to apply.

Students who lack the technology needed to participate in online learning should contact the Dean of Students office as soon as possible.

All lecture and coursework will be conducted through Canvas/Webex. Lectures for the course will take the form of pre-recorded videos of instruction and mandatory attendance in a digital platform (Google Classroom/Webex). It is expected that students attend lecture as usual (same times and days), with the aim to ask questions, see examples worked out, etc. Office hours will be conducted over Webex as well.

Quizzes and exams will be conducted on Google Classroom and/or through Canvas using appropriate technology (i.e. Respondus Lockdown Browser and/or ProctorU or similar).
