

MATH 238-001/003: General Calculus II

Fall 2020 Course Syllabus

NJIT Academic Integrity Code: All Students should be aware that the Department of Mathematical Sciences takes the University Code on Academic Integrity at NJIT very seriously and enforces it strictly. This means that there must not be any forms of plagiarism, i.e., copying of homework, class projects, or lab assignments, or any form of cheating in quizzes and exams. Under the University Code on Academic Integrity, students are obligated to report any such activities to the Instructor.

COURSE INFORMATION

Course Description: A continuation of **MATH 138**. Topics include applications of integral calculus and an introduction to ordinary differential equations.

Number of Credits: 3

Prerequisites: **MATH 138** with a grade of C or better or **MATH 139** with a grade of C or better or **MATH 111** with a grade of C or better or placement.

Course-Section and Instructors

Course-Section	Instructor
Math 238-001	Professor S. Mahmood
Math 238-003	Professor S. Mahmood

Office Hours for All Math Instructors: [Fall 2020 Office Hours and Emails](#)

Required Textbook:

Title	<i>Calculus: Concepts & Contexts</i>
Author	Stewart
Edition	4th
Publisher	Cengage Learning
ISBN #	978-0495557425

University-wide Withdrawal Date: The last day to withdraw with a W is **Monday, November 9, 2020**. It will be strictly enforced.

COURSE GOALS

Course Objectives: *Students should -*

- develop greater depth of understanding of integration and its importance in scientific and engineering applications,
- learn about series, including their convergence properties and their use in representing functions,
- gain experience in the use of approximation in studying mathematical and scientific problems and the importance of mathematically understanding and evaluating the accuracy of approximations,
- learn new ways of mathematically representing curves and how to use calculus in these settings, and
- learn alternative coordinate systems which are natural for many problems and learn how calculus can be applied in these systems.

Course Outcomes

- Students should gain an appreciation for the importance of calculus in scientific, engineering, computer, and other applications. Students should gain experience in the use of technology to facilitate visualization and problem solving. Course Outcomes Students have improved logical thinking and problem-solving skills.
- Students have a greater understanding of the importance of calculus in science and technology.
- Students are prepared for further study in mathematics as well as science, engineering, computing, and other areas.

Course Assessment: The assessment of objectives is achieved through homeworks, quizzes, and exams.

POLICIES

DMS Course Policies: All DMS students must familiarize themselves with, and adhere to, the **Department of Mathematical Sciences Course Policies**, in addition to official **university-wide policies**. DMS takes these policies very seriously and enforces them strictly.

Grading Policy: The final grade in this course will be determined as follows:

Homework	10%
Quizzes	10%
Midterm Exam I	25%
Midterm Exam II	25%
Final Exam	30%

Your final letter grade will be based on the following tentative curve.

A	90 - 100	C	65 - 74
B+	85 - 89	D	55 - 64
B	80 - 84	F	0 - 54
C+	75 - 79		

Attendance Policy: Attendance at all classes will be recorded and is **mandatory**. Please make sure you read and fully understand the **Math Department's Attendance Policy**. This policy will be strictly enforced. Students are expected to attend class. Each class is a learning experience that cannot be replicated through simply "getting the notes." Attendance at all classes (both lecture and recitation) will be recorded and is mandatory.

Homework Policy: Integrity - Your work is expected to be your own. Help from tutors, classmates etc is encouraged but you are responsible for mastering the material. Homework will be assigned at all classes. The homework assignments are in the syllabus and online. In order to do the assignments, you need to have a student access code for WebAssign. You can get an access code with a new book purchase that is bundled with WebAssign or by buying the access code separately at the campus bookstore. If you buy a new book from

another source make sure it is bundled with WebAssign. In addition, on the first day of class you will be given a further code that is needed to access the homework assignments. There will be no makeup homework.

Quiz Policy: Quizzes will be given throughout the semester. They will be based on class lectures and homework assignments. Quizzes will sometimes be assigned through WebAssign. There will be no makeup quizzes.

Exams: There will be two midterm exams held during the semester and one comprehensive final exam. The final exam will be held during the following week:

Midterm Exam I	October 6, 2020
Midterm Exam II	November 6, 2020
Final Exam Week	December 15 - 21, 2020

The final exam will test your knowledge of all the course material taught in the entire course. Make sure you read and fully understand the [Math Department's Examination Policy](#). This policy will be strictly enforced.

Technological Requirements: Students will need access to a computer with a webcam. Exams will be proctored using ProctorU. Quizzes will be proctored using Respondus LockDown Browser+Monitor. Students must follow all instructions related to environment checks and camera positioning.

Makeup Exam Policy: There will be **NO MAKE-UP QUIZZES OR EXAMS** during the semester. In the event an exam is not taken under rare circumstances where the student has a legitimate reason for missing the exam, the student should contact the Dean of Students office and present written verifiable proof of the reason for missing the exam, e.g., a doctor's note, police report, court notice, etc. clearly stating the date AND time of the mitigating problem. The student must also notify the Math Department Office/Instructor that the exam will be missed.

Cellular Phones: All cellular phones and other electronic devices must be switched off during all class times.

ADDITIONAL RESOURCES

Math Tutoring Center: Located in the Central King Building, Lower Level, Rm. G11 (See: [Fall 2020 Hours](#)) Students are encouraged to use the tutoring center as needed throughout the semester.

Further Assistance: For further questions, students should contact their instructor. All instructors have regular office hours during the week. These office hours are listed on the Math Department's webpage for [Instructor Office Hours and Emails](#).

All students must familiarize themselves with and adhere to the Department of Mathematical Sciences Course Policies, in addition to official university-wide policies. The Department of Mathematical Sciences takes these policies very seriously and enforces them strictly.

Accommodation of Disabilities: Disability Support Services (DSS) offers long term and temporary accommodations for undergraduate, graduate and visiting students at NJIT.

If you are in need of accommodations due to a disability please contact Chantonette Lyles, Associate Director of Disability Support Services at [973-596-5417](tel:973-596-5417) or via email at lyles@njit.edu. The office is located in Kupfrian Hall, Room 201. A Letter of Accommodation Eligibility from the Disability Support Services office authorizing your accommodations will be required.

For further information regarding self identification, the submission of medical documentation and additional support services provided please visit the Disability Support Services (DSS) website at:

- <https://www.njit.edu/studentsuccess/accessibility/>

Important Dates (See: [Fall 2020 Academic Calendar](#), Registrar)

Date	Day	Event
September 1, 2020	T	First Day of Classes
September 5, 2020	S	Saturday Classes Begin
September 7, 2020	M	Labor Day
September 8, 2020	T	Monday Classes Meet
September 8, 2020	T	Last Day to Add/Drop Classes
November 9, 2020	M	Last Day to Withdraw
November 25, 2020	W	Friday Classes Meet
November 26-29, 2020	R - Su	Thanksgiving Recess - University Closed
December 10, 2020	R	Last Day of Classes
December 11 & 14, 2020	F & M	Reading Days
December 15 - 21, 2020	T - M	Final Exam Period

Course Outline

(This outline is subject to change throughout the semester)

Lecture	Sections	Topic	Assignment
1		Introduction/ Precalculus/Calculus 1 Review	Finish what is not completed in class
2	5.4	The Fundamental Theorem of Calculus	5.4 Ex.: 8, 8, 9, 13, 25
3	5.5	The Substitution Rule	5.5 Ex.: 8, 10, 29, 40, 42
4	5.6	Integration by Parts	5.6 Ex: 4, 6, 12, 17
5	5.7	Additional Techniques of Integration	5.7 Ex.: 2, 6, 8, 20
6	5.7	Additional Techniques of Integration	5.7 Ex.: 22, 23, 25
7	5.9	Approximate Integration	5.9 Ex.: 5, 8, 10,
8	5.1	Improper Integrals	5.10 Ex.: 8, 14, 16
9		<i>Catch up and Review for Exam</i>	Chapter 5 Review Ex.: 9-32
10		EXAM I	
11	6.2	Volumes	6.2 Ex.: 5, 7, 8, 14, 16
12	6.2	Volumes	6.2 Ex.: 2, 10, 13, 14
13	6.3	Volumes By Cylindrical Shells	6.3 Ex. 9,10, 11, 12
14	7.1	Modeling with Differential Equations	7.1 ex. 7, 9, 11, 13, 14
15	7.3	Separable Differentiable Equations	7.3 ex. 2-18 evens
16	8.1	Sequences	8.1 Ex.: 4, 6, 14, 16, 41
17	8.2	Series	8.2 Ex.: 4, 6, 22, 26
18		<i>Catch up and Review For Exam</i>	
19		EXAM II	

20	8.3	Integral and Comparison Tests	8.3 Ex.: 6, 10, 16, 18
21	8.4	Other Convergence Tests	8.4 Ex.: 21, 22, 26, 29
22	8.4	Other Convergence Tests	
23	8.5	Power Series	8.5 Ex.: 13, 14, 19, 20
24	8.6	Representations of Functions as Power Series	8.6 Ex.: 5, 6, 7, 8
25	8.7	Taylor and Maclaurin Series	8.7 Ex.: 5, 6, 13, 14
26	<i>Catch up and Review for Final Exam</i>		
27		FINAL EXAM
