

Spring 2020 Syllabus Addendum Transitioning to Online Instruction

Math 335-002

Course Title: Vector Analysis

Instructor: Peter G. Petropoulos

Date: March 21, 2020

For the duration of the COVID-19 emergency:

- 1) Detailed lecture notes will be distributed via Moodle Announcements for the remaining syllabus topics. The students must study the notes before the course meetings that will discuss them (see 3) below).
- 2) Online class meetings will take place via Canvas Conference, or Webex Meetings, as the general innernets infrastructure conditions permit.
- 3) During the online class meetings we will discuss the previously distributed notes and work through example problems.
- 4) Assigned homework will be turned in by the indicated due date and time as a single pdf file, with file name format as follows: **yourRealName-yourIDnumber-theHWnumber-MATH335S20.pdf** The dashes must be in the filename. Obviously, your writing and scan must produce an easily readable document for me to grade. Unreadable documents, and other formats for the filename and file type, are not acceptable. The Honor Code is in effect. Suspected violators will be reported to the authorities.
- 5) The second midterm and the final exam will be take-home exams to be completed during the allotted time as scheduled. The exams will be distributed 5 minutes before the official start of the exam via Moodle Announcements. Five (5) extra minutes will be given at the end of the exam in order for you to scan the exam into a single pdf file with file name format **yourRealName-yourIDnumber-theEXAMtitle-MATH335S20.pdf** The dashes must be in the filename. Obviously, your writing and scan must produce an easily readable document for me to grade. Unreadable exams, and other formats for the filename and file type, are not acceptable. The Honor Code is in effect. Suspected violators will be reported to the authorities.
- 6) I will be available via Google Hangouts (send me an e-mail **first**) for Office Hours on Mondays and Wednesdays during the hours 11AM-4PM. In your e-mail, indicate the desired meeting time.
- 7) As of this writing I do not know how final grades will be decided for this semester. Until you hear otherwise we are operating under the syllabus guidelines in regards to letter grade determination.

This situation we find ourselves in is unique. To have any hope of successfully doing our jobs, me as the teacher and you as the students, we must all make an extra effort. STAY HOME-STAY SAFE-STUDY!
